installed in your Axis IP camera  
livestreams directly to any  
streaming platform

-  YouTube
-  facebook
-  vimeo
-  twitch
-  WOWZA  
media systems
-  dacast

## What is CamStreamer App?

CamStreamer App is a smart application that runs onboard of an Axis IP camera and streams live video right to YouTube, Facebook, Vimeo, and any other RTMP, HLS, SRT MPEG-TS, NDI®|HX streaming platforms.

## How does CamStreamer App work?

CamStreamer App leverages the power of an Axis IP camera and sends live video right to your streaming platform. No need for an extra computer, public IP address, or complex configurations.

## What you can do with CamStreamer App?

### Perfect for 24/7 livestreaming

Share a 24/7 view of your city, historical monuments, nature, or wildlife with the whole world.

### Stream from anywhere

Axis cameras are built for demanding environments, making it possible for you to stream with CamStreamer App even from difficult-to-reach locations.

### Automation possibilities

Your broadcast can be planned, recurrent or one-time on a specific date and time.

## Features

- 

**Embedded in camera**
-

# Check our **LIVE GALLERY** and see Axis cameras in action

Our apps power **more than 20,000 cameras worldwide** and many of these live cameras can be seen at **[camstreamer.com/live](https://camstreamer.com/live)**. In the live gallery, you can search among hundreds of beautiful well sorted streams using full-text search or filter them by category or Axis camera type.

## About CAMSTREAMER

**CamStreamer is a Czech company based in Prague.  
As a developer of ACAP apps and cloud solutions exclusively for Axis  
cameras, the company is an Axis partner for over a decade.**

CamStreamer in-camera apps can livestream with no computer/edge HW or complicated setup needed. Livestreams can be completed with dynamic overlay graphics, mixed with prerecorded videos, and sorted into playlists. External data can be embedded and visualized. The CamStreamer Cloud solution provides easy remote access to cameras without fixed IP or VPN, the ability to create dashboards, or utilize Recording and TimeLapse features.

**Do not hesitate to contact us, in case of any questions!**
